

On August 18, 2013 the Joy Sunday School Class studied about needs in **Haiti** and how Swansboro UMC has been involved in helping families in Haiti since 2009. The Sojourner Class and the Junior and Senior High Classes attended also.

Dave Johnson gave a short history of Haiti and showed a power-point synopsis of our church's involvement there (2009 to present).

We then enjoyed having Linda Mitchell, NC Conference missionary, present information on basic needs in the village of Fond Doux, Haiti and tell about her recent mission trip there. She shared a power-point showing scenes in the village and she focused on explaining about our

projects that are helping many local families and their children. Linda has traveled to Haiti for more than 20 years doing medical missions and food and clothes distribution.

Our SUMC mission team is currently planning a mission trip to Haiti in the fall of 2013 to begin the implementation of our goat farm project. Anyone interested in joining the late Oct/early Nov work (manual labor) team to put up goat fencing and build the goat shelter -- please contact Lisa Potts at 910.340.6607.

“Thank you!” to Dave Johnson, Linda Mack and Linda Mitchell
for making this presentation a success.
