Areas of Discussion:**Trustees:**

Mel Gus shared the following information:

- The Joy Sunday School class made a request to have some help in making the Fellowship Hall more suitable for having their SS class in there. The Joy Class has been working to get some prices for carpeting and other updates for the Fellowship Hall for the Trustees to review
- The Fellowship Hall is getting to be an important asset for church, so don't want to overload it. We need to improve the acoustics and lighting. The Joy Class is requesting a corner of the room with a temporary wall. The Crystal Coast Choral Society would like to get back in that room every Tuesday, September till Spring. There is an offer by the CCCS leader to pay for a lift to get new lighting in the FH.

- Lou Collins shared the status of the Sacristy - she has contacted some contractors to give estimates on cabinets and will bring this information to Trustees when she gets it
- UMCOR is requesting to use the peanut cooking kitchen and AA room for team cooking and dining area. Mel created this list of considerations:
 - The number of volunteers who may be in the AA/dining area at one time may be a concern
 - He doesn't see a conflict with UMM and their peanut cooking times. The UMM only cook every 2 weeks.
 - Teams provide their own cooks and cleanup.
 - Serving area needs to be near kitchen which is a problem downstairs in Building 2.
 - They could continue using the Day Care kitchen - serve meals in assembly room OR use peanut room for cooking and use AA room for serving room.
 - There is no stove in the peanut kitchen and no cooking utensils.
 - Could be a conflict with the AA group which has meetings Monday - Friday at 7:45pm
 - They would have to get a commercial stove and there are wiring needs
 - May have to change cooking times. Deep fryers are on rollers and may be able to store in large room where they store jars and peanuts.
 - Put health certificate in jeopardy, some individuals want to cook their own meals and cant' in the big kitchen, our youth and other demands on Bldg 3.
 - have to leave doors open when volunteers have to come in which makes other areas not secure in the Day Care
 - Old day care cabinets are empty, but may need additional refrigerator
 - We need to get some input from the AA leader
 - All agreed that our church needs to help UMCOR as best as we can

The recommendation from the Trustees is that the UMCOR volunteer use the Peanut Kitchen and adjacent AA Meeting room.

The Church Council members came to consensus and are in agreement with the Trustees

Status of parking lot:

- John Freshwater got a list of requirements for parking lot work. The needs must be put in priority order. Trustees will address this at their next meeting.
- H&H Lawn care. Lynn Rouse spoke to H&H contact who she knows and he said he could stripe the parking lot.

Yana shared:

- We still have a problem with there not being enough handicapped parking. Some of vehicles currently using theses spaces do not have any handicapped identification tags/hanging IDs. —
- Perhaps we need to remind folks in multiple communication venues to not use HP unless you have the proper identification. Maybe put a cone out there. Lines are very faint and some have more than one color. Yana will get a couple of cones.

Pastor Kevin share a new Budget approach:

- Think of \$0 as your based budget. What is your actual spending? What are your new expenses?
- If anyone needs help with their budget contact Carol.

Yana closed the meeting in prayer at 7:55pm

The next SUMC Church Council Meeting will be on Wednesday, October 30th at 7pm in the Choir Room.
