My Story

Following my Sophomore year at Meredith College a friend told me about the Summer Orlando Project and I attended that summer. It was there that I first understood Romans 6:23 and what it meant to be a disciple of Christ. With the assistance of CO staff and student leaders, I began to grow in my faith and upon graduation was convinced that there was no better way that I could spend my life than to invest in college students. I was passionate for others to have the gospel transformation that I had received and wanted to be a part of the ministry of the gospel, particularly in the university context. Four years later that is still my desire. Because of this, I want to serve and shepherd our campus staff by providing resources so that they can be more effective in their jobs. The goal in all of this is that God would be glorified and his kingdom would be advanced in the world.
